#### 1. Introduction

In the pre-railway era, navigable waterways were the most efficient way of carrying low value, bulky, non-perishable goods (like coal and grain) This can be illustrated by comparing the typical load that a one-horse wagon could carry on a pre-turnpike road with the typical load that a single-horse barge could haul on a broad canal

#### Volunteering and Inland Waterways

waterways in Britain, balancing the needs of navigation and aquatic wildlife, awareness and appreciation of the canal network in Scotland, reducing carbon dioxide emissions by moving more freight onto inland waterways as illustrated by selected case studies in Annex 1 (page A1)
